

Introducing Uber Freight Exchange

Win better bids with speed, ease, and insights

Welcome to the future of contract bids

Uber Freight Exchange simplifies contract bidding by removing manual and time-consuming challenges. With decreased lead times, greater data access and an ever-increasing shipper pool; growing your business is easy.

Through the Uber Freight Exchange dashboard, you can access built-in communication tools, easy-to-use bid functionality, and historical performance reporting to help increase bid success and keep you in-control of your business growth.

Get it done with Uber Freight Exchange

Expand your horizons

Receive email bid invitations from shippers and access the full bid details on the Uber Freight Exchange dashboard. Once on the dashboard, you can review, bid and explore similar lanes to expand your business with current and new shippers.

Meet your one-stop bid shop

Reviewing and submitting bids is simple through the intuitive Uber Freight Exchange dashboard. Receive automated award decisions directly within the tool and access all the details you need like bid terms, lane notes and more.

Improved communications

Having both shipper and carrier communications managed with Uber Freight Exchange means no more relying on phone calls, texts, or handwritten notes that could get lost in the shuffle— there's one place where all bid invitations, shipment updates, and award decisions live.

From one tool, you can

Access bids from multiple shippers

Review, submit, and get award notifications

Communicate directly with shippers
